CAREER OBJECTIVE

Dedicated AI&ML student learning new technologies and contributing to opensource projects. Looking for an opportunity to enhance and use my hands-on experience and skills and contribute to the organization's goals with a strong willingness to learn and grow.

EDUCATION

Degree	Year	Institute/Board	%/CGPA
B.E-CSE-AI&ML (pursuing)	2024-2027	Madanapalle Institute of Technology and science , Angallu , Madanapalle	7.1 (till date)
Diploma in CSE	2021-2024	Loyola Polytechnic YSSR, Pulivendula	82

INTERNSHIPS

MLOPS Engineer - Chaitanya Cyber Strix Technologies Pvt Ltd

SKILLS

Languages

Python
C

AI & Deep Learning

TensorFlow
PyTorch
Agy CLI
Claude Code
RAG
Fine Tuning(basics)

MLOps & Cloud

- MLflow
- DVC · DagsHub
- Weights & Biases
- AWS
- Docker
- FastAPI
- Backend Development
- System Design
- Frontend Development
- Web Servers
- SQLite
- PostgreSQL

COURSE AND CERTIFICATION

Machine Learning certificate – DeepLearning.AI(Instructor Andrew ng)

PROJECTS

MITs Campus Intelligence RAG Chatbot: Built a GenAI-powered RAG chatbot on MITs institutional data using Pinecone, n8n, and Gemini AI, with DagsHub + DVC for reproducibility.

AI-Powered Health Monitoring System: YOLOv8-based disease detection for coronary stenosis and mouth cancer, achieving 95% mAP, deployed via a Flask API and tracked with MLflow.

Delivery Delay MLOps Pipeline: End-to-end industry-standard MLOps project with experiment tracking and versioning via MLflow, DVC and DagsHub. Project link: [project](#)
